

Combiplow®

Combinable soil looseners

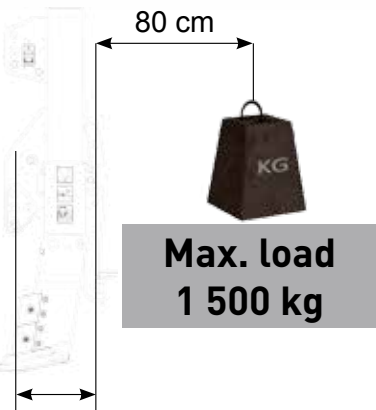

The Professional's Choice

Exclusive technology

Common characteristics : TCS blade 650 / Bolt security / Signalisation of serie / Crutch : to secure

Combiplow® Silver

Machine presented in 3 m

Maximum compactness : 37,5 cm

Combiplow® Gold

Machine presented in 3 m

Maximum compactness : 29 cm

Agronomy

PATENTED

- No disturbance of horizons
- Vertical fissuring by the creation of a wave
- Facilitate crop growing and the capillary rises

Economy

- 1 driver
- 1 passage
- 1 tractor

- Decreases the time of intervention
- Control the loads of setting-up
- Fissuring and crop growing at the same time

The only blade recognized by agronomists

Working depth from 10 to 40 cm From 4 to 10 km/h

Front manipulations / Front coupling cat.2 or 3 / Back coupling : perfect parallelogram / Carbide tip series

Combiplow® Platinum

Machine presented in 4 m

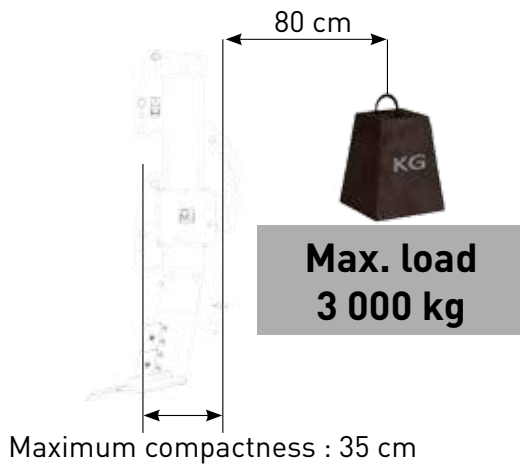

Frame
200x200 mm

Combiplow® Platinum Version SR

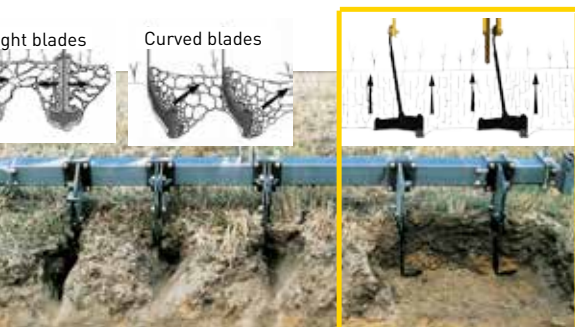

Machine presented in 3 m

Frame
120x200 mm

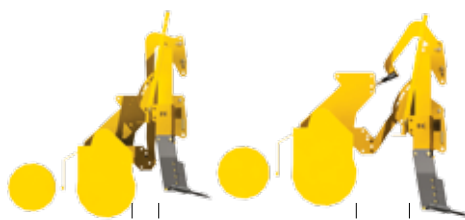

Performance

Homogeneous soil loosening on the entire width
Without "blockage effect"
Without creation of clods

Retractable coupling

-  - Clearance at work
-  - Compact for transport
-  - Frame compactness

Bridge framework

-  - Large passage for PTO
-  - Coupling safe

Specifications
